I was in the office with Nadia discussing the statement forms we needed to get from employees when we look up to the TV with the cameras footage and see Mr. Roy Hutchins taking pictures in the dining room of the restaurant. He moves to the ordering line or the entrance of the building and takes more pictures. We watch him walk around inside and outside the restaurant taking pictures of rooms, decorations, walls, the menu. After taking pictures of the front entrance of the building he was gone.
